

3rd RFID Academic Convocation

Opportunities for RFID Sponsored Research Collaboration

Committee Co-Chair

Bill Hardgrave

University of Arkansas, USA

Stephen Miles

Massachusetts Institute of Technology,
USA

Dimitris Kiritsis

Ecole Polytechnique Fédérale de
Lausanne, Switzerland

John Williams

Massachusetts Institute of Technology,
USA

Conference Committee

(Ordered by alphabet)

David W.L. Cheung

University of Hong Kong, China

Dieter Uckelmann

University of Bremen, Germany

Duncan McFarlane

Cambridge University, UK

Elgar Fleisch

St. Gallen and ETH Zurich, Switzerland

Gisele Bennett

Georgia Tech Research Institute, USA

Gregory McCarthy

North Dakota State University, USA

Hao Min

Fudan University, China

Jean-Pierre Emond

University of Florida, USA

Jun Murai

Keio University, Japan

Kaveh Pahlavan

Worcester Polytechnic Institute, USA

Mark Roberti

RFID Journal, USA

Marlin Mickle

University of Pittsburgh, USA

Peter H. Cole

University of Adelaide, Australia

Quingue Ling

Oregon State University, USA

Sang-Gug Lee

Information and Communications
University, Korea

Tom Pain

University of Pittsburgh, USA

Yu Liu

Institute of Automation, Chinese
Academy of Sciences, China

October 29-30, 2006, Beijing, China

Co-sponsors:

Auto-ID Labs at MIT

RFID Lab at Institute of Automation, CAS

Auto-ID Labs at Fudan University

CALL FOR PAPERS

In recent years, RFID and relevant technologies became one of the hotspots in the world. Anyone with foresight cannot ignore the potential market in China, either as producer or as customer. The 3rd RFID Academic Convocation will be held at the Institute of Automation, Chinese Academy of Sciences, Beijing, China from October 29 to 30, 2006. The convocation theme is "RFID and Auto-ID in China", reflecting the growing interests in RFID and Sensors, Network Hardware and Software, Health & Life Sciences, International Supply Chain, Distributed End-to-End Manufacturing Product Lifecycle Management, etc. The 3rd RFID Academic Convocation will provide the participants good opportunities to see and comprehend the development chances in China while enjoying the high quality invited talks by researchers from all over the world and round table sessions with enterprises.

Papers are solicited in all related areas in RFID and Auto-ID technologies. We welcome papers that focus on original research, development, and experiences. All papers submitted to this convocation will also be considered for possible publication in a special issue of ACTA AUTOMATICA SINICA. Except selected papers from the 3rd RFID Academic Convocation, we also encourage other submissions.

IMPORTANT DATES

August 30, 2006: Submission of full-length papers

September 30, 2006: Notification of paper acceptance

October 20, 2006: Submission of final papers

Convocation Secretariat:

Yu LIU
